Gun Cleaning Supplies

**1-Piece Deluxe Carbon Fiber Cleaning Rod**

This lightweight, 1-piece carbon fiber rod is more durable than steel and will not damage the rifling in a firearm's barrel. Carbon fiber is flexible enough to bend and return to its original shape, and it won't get embedded with grit or flake off like coated rods do. The fully ergonomic handle features double bearings to provide ultra smooth rotation of the rod as it precisely follows the rifling. Bore brushes sold separately.

**Laser Training System**

Practice at home, in any weather, and save money on ammunition and gas! This Laser Trainer is designed to fit pistols from 9mm to 45 caliber with at least a 2" barrel. When you dry-fire your gun, the laser will flash, offering instant feedback for the shooter. The optional Laser Trainer Target adds delayed feedback, so the shooter can concentrate on the next shot instead of the last shot. Simply aim at the target and dry fire the pistol with any LaserLyte Laser Trainer. When you fire the laser at the small display circle on the face of the target, the impact spots for all your shots light up and you can review the group just like at the range. When finished, simply fire the laser at the red reset circle to begin again with a fresh target.

**Turbo Sonic Ultrasonic Case Cleaner**

Delivers ultrasonic cleaning action that allows reloaders to clean cases inside and out in less than 10 minutes. The unit features a heated tank that when combined with Lyman's specially formulated case cleaning solution (sold separately) delivers superior case cleaning including removing residue from the inside of the case and primer pockets. Ultrasonic action creates "Microjets" that take off the most stubborn carbon from brass cases, gun parts and other equipment that will fit in the machine.

BLACK FRIDAY - 8 DAYS OF DEALS - STARTS 11/25 @ MIDNIGHT CST

Hunting Backpack

This durable daypack is constructed of a quiet brushed polyester fabric and features a 600D nylon bottom, with equipment lashing points, for maximum protection and functionality. The padded, contoured shoulder straps help reduce fatigue and will keep you comfortable on long treks, while the padded hip belt helps keep the weight off of your shoulders and features MOLLE webbing for gear attachment. At 2 lbs., 2 oz. this pack is also great for spot and stalk hunting and features a hydration pocket (2 liter water bladder not included), allowing you to stay hydrated and focused on your hunt.

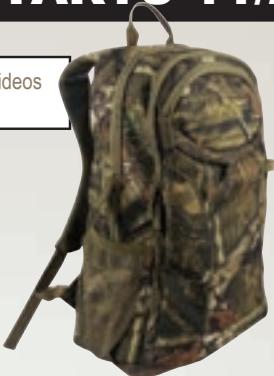

# 247-938 ..... Compare At \$99.99 ..... **Our Price \$49.99**  
Save \$50.00

Treestand Backpack

The Treestand Pack is constructed using heavy duty 600 Denier nylon that is tough and abrasion resistant along with a brushed polyester that is soft and quiet yet extremely durable. The main compartment of the MidwayUSA Treestand Backpack will store all your additional cold weather or wet weather gear as well as a game processing kit or whatever else you need to carry into the field with you. The exterior features mesh water bottle pockets and MOLLE webbing for you to attach additional pouches. In addition the rear of the pack features two small zipper pockets that house 18" of high-strength nylon webbing which allow the pack to "hug" the tree and provide stability and a secure hold. With the two 18" straps the MidwayUSA Treestand Backpack can attach to trees up to 42" in circumference.

# 764-089 ..... Compare At \$159.99 ..... **Our Price \$54.99**  
Save \$105.00

Backpack

The MidwayUSA Mossy Oak Break-Up Infinity Backpack was designed for the serious hunter and avid outdoorsman. Constructed of an abrasion resistant, PVC coated polyester that features taped and finished seams and heavy-duty zippers, this backpack is more than tough enough to stow all of your gear for those long hunting expeditions. Make better time by walking faster and longer due to the innovative back-support system that utilizes four strategically placed, high-density foam pads which form two channels along the wearer's back. One channel runs vertically along the spine while the other crosses laterally across the back to improve air flow, reducing perspiration and increasing overall comfort. The entire backside of the pack and underside of the shoulder straps are covered in a nylon mesh to further augment air flow.

# 991-467 ..... Compare At \$39.99 ..... **Our Price \$24.99**  
Save \$15.00

Tactical Backpack

The MidwayUSA Tactical Backpack was engineered to be your go-to tactical backpack. The pack features 600D Nylon construction with one main storage compartment as well as two zippered compartments on the front of the pack for additional storage to separate smaller items. An internal pouch is included to accommodate a hydration bladder (not included) for camping or hiking excursions. The pack features adjustable padded shoulder straps, padded adjustable hip belt and a padded back with channels to improve air flow for your comfort when carrying all of your tactical gear. A small lined pocket located on the top of the pack is the perfect place for your favorite sunglasses or shooting glasses. Features a MOLLE accessory system along with a velcro section for patches and name tags, side compression straps, sewn pull tabs, internal organizer, and heavy duty nylon carry handle.

Heavy Duty Tactical Rifle Case

The MidwayUSA Heavy Duty Tactical Rifle Case with 6 Pockets is a heavy-duty solution for anyone looking for a rifle case. These cases are constructed with an advanced dual density bonded padding system that provides superior impact protection compared to basic foam used in other cases. The heavy duty padding is over 1" thick on both sides to protect your rifle and optics investment from rough handling in storage or travel. Other enhanced durability features include heavy duty, 600D high-abrasion resistant ballistic fabric construction, and oversized self repairing coil zippers with sewn pull tabs. The fully wrapped webbing handles, reinforced seam stitching, metal hardware, adjustable shoulder strap and snag-proof 600 Denier lining fabric make the MidwayUSA Tactical Rifle Case an excellent choice for transporting your sporting rifles.

Length: 42", 46"  
Color: Black, Olive Drab

This upgraded range bag features a tough polymer shell on the bottom of the bag which conveniently doubles as a storage area. Elastic shock cord on top is perfect for stowing towels, hats, or rolled-up jackets. A rain fly comes standard with the bag. The large external pocket features three rows of MOLLE webbing, and two large external pockets on the opposite side of the bag feature removable AR-15/M-16 magazine organizers that attach via Velcro strips. If you're looking for a professional-grade range bag without the professional price tag, the MidwayUSA Pro Series Range Bag is an obvious best-choice. 24" x 11.5" x 9.5". Black.

AR-15 Range Bag

The AR-15 Range Bag has a durable nylon exterior with a dual-zipper lid opening up to a spacious interior compartment that is padded to keep your valuables safe. Open-top internal pockets along either side allow you to carry additional pistols and two large external pockets on the opposite side of the bag feature removable AR-15/M-16 magazine organizers that attach via Velcro strips and allow for carrying five magazines in each pocket. A drink pouch on the end keeps your beverage close at hand for those long days at the range. With rubber gripping on the bottom of the bag, there is also a removable, padded carry strap to get your gear where you need it. The MOLLE webbing on the exterior of the large external pocket allows users to attach a variety of accessories or pouches to keep go-to items at the ready. Inside the large exterior pocket are four pouches that will fit eight AR-15/M-16 magazines and are bound by elastic and have a Velcro closure flap to ensure your mags aren't going anywhere when you're heading out for a day of shooting.

Caldwell®  
Shooting Supplies

Lead Sled DFT Rifle Shooting Rest

The Lead Sled DFT offers a dramatic upgrade to the original Lead Sled. Dual Frame Technology (DFT) provides increased stability and allows 22" of front to back adjustment to accommodate any long gun. It utilizes the same windage and elevation adjustment system as the Rock BR competition rest, making adjustments extremely fine and consistent. Filled front bag and padded rear cradle protects your firearm and rubber tipped feet offer no-skid support on any surface.

# 149-023

\$179.99

Reg \$214.99

Lead Sled Solo Rifle Shooting Rest

Provides a smooth pivoting elevation system controlled with a single knob making adjustments onto target fast and precise. The heavy duty steel construction provides a stable and solid shooting platform. Its unique offset frame is designed to accommodate all rifles including detachable magazine rifles like the popular AR-15 platform as well as lever actions guns. The front support is height adjustable and has a durable rubberized coating that will not scratch or mar your gun.

# 394-466

\$74.99

Reg \$84.99

Rock Front Shooting Rest

The Rock Shooting Rest includes features precision shooters have used for years. It has an extra wide stance for stability, with adjustable cradle ends to keep forends secure. The cradle height is adjustable from 4-1/2" to 7-1/4", and a forend stop offers quick retargeting. It also includes adjustable, hard-point leveling feet. 5-1/2 pound aluminum and steel construction. Includes a Medium Front Rest Bag.

E-MAX Low Profile Electronic Earmuffs

E-Max Electronic Earmuffs combine great circuitry with a low profile earcup ideal for shotgun shooters and action shooters. The two microphones in the E-Max amplify sounds below 85 decibels, which amplifies normal communication, range commands, and environmental sounds. Above 85 decibels, the microphones shut off for a split second to protect the shooter's hearing. The E-Max Low-Profile Earmuffs are now available in pink, to accommodate all the lady shooters out there. NRR = 23dB.

TackDriver Shooting Rest Bag

The TackDriver Shooting Bag features the innovative Caldwell non-stretching, non-sagging polyester, plus an added non-slip, non-marring material on the top and bottom that combine to offer a stable and secure shooting rest. This shooting bag is solid yet portable and can be used just about anywhere, even on vehicle hoods. The long, self-tightening contact surfaces grip your rifle like a vise and aid in reducing muzzle jump and felt recoil. 11" L x 8" W x 8-1/2" H. Filled bag weighs about 12 pounds.

Gamma Master  
Chronograph

The top of the Line in the Shooting Chrony family. Measures the speed of bullets, arrows, shot, pellets, paintballs, etc. from 30 to 7000 fps. Mounts on any standard tripod or it can be placed on a table. Made of 20 gauge steel, it weighs less than 2-1/2 lbs and uses one 9 volt battery (not included) for 48 hours of continuous use. The Ballistic Chrony Printer is included with the Gamma Chronograph. Features 500 shot memory (divided into 50 numbered strings of 2 to 10 shots each) and memory for 500 individual time readings. The Gamma measures and stores shot velocities and time-elapased between shots, including total time. In Timer Mode the Chrony will measure up to 1800 rounds per minute. The Gamma Master has a monitor which brings the large LCD up to your bench. Covered under a 3-year limited factory warranty.

AR-15 Deluxe  
Brass Catcher

The UTG Deluxe Brass Catcher features a hook and loop band that goes around the handguard or free float tube and a bendable wire frame that holds the mesh bag up to the ejection port. With this brass catcher, you also have the option of keeping the bag closed or opening it to allow spent rounds to fall in a neat pile instead of flying wherever the gun ejects them to. The zipper makes this bag easy to empty if you choose to keep it closed while shooting. The UTG Deluxe Brass Catcher is great for those who reload and want to save their brass.

AR-15 Eliminator Brush Kit.....	557-520.....	\$14.99.....	<b>\$12.99</b>
Includes an upper receiver brush, bolt carrier brush, bore brush and chamber brush			

Gunsafe Accessories

This kit can be easily installed in any vault and is designed to provide illumination throughout the entire interior. The flexible 12 foot rope features super-bright white LED lights in a clear durable tube that can be routed to provide superior light coverage regardless of shelf configuration inside the vault. Includes 6 feet of power cord and an in-line on/off switch. A quick install plug allows the power cord to be easily routed through the vault wall. Mounting clips and screws are included. Drawer mounts to the underside of your shelf to free up valuable shelf space. It provides 11-1/2"W x 12"D x 2"H of previously unused space. The Vault Drawer is perfect for a variety of loose valuables and documents. The wire form frame slides over any shelf up to 1" thick. The frame's retaining bar butts up against the trays molded lip to keep the user from pulling the drawer out too far and spilling its contents. Overall dimensions: 14"W x 4"H x 14"D.

**Redemption 50 Cal Muzzleloading Rifle**

This high-tech muzzleloader features a threadless breech plug design to eliminate stuck breech plugs and gunk build-up in the threads. The Stealth striker-fire design eliminates having to mess with cocking and de-cocking a hammer. Simply pull back the lever and fire. If you decide not to fire, a de-cocking button pushes the rifle back to a safe and un-cocked position. The 24" Green Mountain Cloverleaf barrel offers match-grade accuracy, while the Armornite metal finish prevents corrosion inside and outside of the barrel. This will decrease your cleaning time and improve your accuracy. The FT2 match trigger also increases accuracy and features zero overtravel. The Redemption also comes with a multi-tool that features a palm saver and range rod handle. 41" overall, weighs 7 lbs.

**Skull Display Stand**

Skull Hooker is the world's first professionally finished and fully adjustable European skull mounting bracket. These stylish brackets are powder coated and are fully adjustable (up and down) to accommodate different species' horns or antlers and more importantly providing a natural upright look. The Skull Hooker arm can swing both right and left taking advantage of all areas of a room. This product does not require you to drill holes in your trophy because it works with the natural holes and crevices inherent in the back of all skulls. This mounting system is a great way to get a professional and elegant display of your hard earned trophy. This mount comes complete with all necessary hardware to securely display your trophy. The Big Hooker is a larger game bracket designed for larger trophies such as elk, bison, moose, caribou, grizzly/brown bear, domestic steer and other exotic larger game such as kudu, stag, cape buffalo etc. The Little Hooker is a smaller game bracket designed for all deer species, black bear, cats, antelope and exotic smaller game (skull weight under 10lbs) such as gazelle, impala etc.

### Elite HSS-610 Treestand Safety Harness Vest

The premier name in treestand safety harnesses has changed the way that hunters think about safety harnesses with the Elite. This harness is the most comfortable and user friendly harness ever developed by Hunter Safety System and takes comfort to a whole new level. This patented design eliminates dangling straps and weave-through buckles. Just zip it up, hook up the leg buckles and you are off. With eight pockets to keep your gear organized and removable accessory straps for your rangefinder or binoculars, you will forget that this is a safety harness; it will become your favorite piece of hunting clothing. If you are tired of traditional safety harness designs, step into something different with the Elite.

## GARMIN™

### Dakota 20 Handheld GPS Unit

Enjoy high-priced features in an affordable, high-quality GPS unit with the Garmin Dakota 20. This palm-sized unit features a 2.6" color touchscreen display, allowing for easy and enjoyable operation. The Dakota 20 comes standard with a basemap and features the ability to download additional maps. The generous 850 MB internal memory provides plenty of space for file downloads, while the MicroSD card adaptability is useful for those who require more memory or specific maps. With 1000 waypoint capability, marking favorite spots just became much easier. The Dakota 20 is paperless Geocaching friendly, while the electronic compass features a 3-axis design, compensating for tilt and helping you see where you are going, even while standing still. The barometric altimeter helps this unit track your precise location, using changes in barometric pressure. This feature also allows you to keep an eye on ever-changing weather conditions by tracking barometric pressures over time. With its weatherproof design, the Dakota 20 will stay dry and functional and is submersible up to 1 meter for 30 minutes. Utilizing 2 lithium AA batteries (not included), the Dakota 20 features battery life of up to 20 hours.

### Bone Collector Hooded Sweatshirt

The Bone Collector crew has been putting the "Smackdown" on game for years. Now you can join The Brotherhood and proudly represent your hunting passion with the Scent Blocker Bone Collector Logo Hooded Sweatshirt. This MidwayUSA exclusive hoodie is constructed of 80% cotton and 20% polyester and is sure to keep you looking good, whether you are wearing it to hunt out of a ground blind, layering over it in the field or wearing it around town to run errands. The kangaroo pouch is perfect for storing gear or as a place to keep your hands warm, while the draw-cord hood is easily adjustable. The brushed fleece interior makes layering under this hoodie a breeze and is the very definition of comfortable. The Bone Collector hooded sweatshirt contains three screen-printed logos; the Antler Shield logo resides on the upper chest, the Bone Collector logo is on the right sleeve and on the back, The Brotherhood logo stands loud and proud for all to see.

### Softshell Fleece Hooded Sweatshirt

The Natural Gear Softshell Fleece Hooded Sweatshirt is a versatile hoodie that can be used during most any major hunting season. This highly-technical piece is constructed of a lightweight softshell fleece material, which works aggressively to wick heat and moisture away from your body and to the quick-drying shell. This is ideal during the early season big game hunts, turkey season and early duck hunting. Don't let the Softshell Hooded Sweatshirt's lightweight nature fool you, this hoodie is an extremely valuable layering piece for cold weather hunting, as the 300 weight fleece retains and circulates body heat. The handwarmer pocket is a pass-through design, allowing you to keep your hands warm and protected or letting you store essential gear.

### SideKick XP Compound Bow

The Parker SideKick XP is specifically designed to cater to small framed shooters and features extreme adjustability in poundage and draw length. This well balanced bow allows younger shooters to shoot a quality bow that will last them for years to come without having to constantly find a new bow with a longer draw. Unlike some highly adjustable bows, the SideKick XP isn't just a cheaply designed fad bow. Made in the US and backed by the legendary Parker lifetime warranty. Full of top-end features and all at a price that doesn't break the bank, the SideKick XP will keep serious women and youth shooters punching out the x-ring.

**LEE**

**2-Cavity Bullet Mold**

2-Cavity Bullet Molds are a great choice for reloaders looking for a quality mold at an affordable price. Lee machines their mold blocks from aluminum making them rust resistant. Aluminum blocks are one-third the weight of iron or steel mold blocks offering the bullet caster less fatigue during extended casting sessions. To ensure the best possible bullets, mold block halves are clamped together then lathe-bored for unmatched roundness and size control. Weights given are Lee's weights with suggested alloy; actual weight may vary due to the alloy mixture used.

**Breech Lock Hand Press**

The Lee Breech Lock Hand Press takes all of the great features of the Lee Hand Held Press and adds Lee's convenient Breech Lock System that allows reloaders to quickly change dies without having to readjust dies. A full size hand held reloading press, yet the tool weighs only 1-1/2 lbs and costs so little reloaders will want more than one. No matter how much reloading equipment a reloader has, it is really great to have a portable hand press. No time is wasted mounting a tool to a work bench. When finished reloading, just pack it all away. Hand Press accepts standard 7/8"-14 threaded dies and shellholders (sold separately) and has 3-1/2" of clearance.

Pepper Spray

Mace is a careful blend of OC pepper formula that causes the eyes to slam shut, uncontrollable choking, profuse tearing and disorientation. Some models include UV dye to mark and identify the attacker. Triple-action formulas add tear gas to the mix. The combination of these agents produces a powerful self defense spray.

E2D Ultra Defender LED Flashlight

This compact 500-lumen flashlight utilizes a virtually indestructible high-performance LED and a Total Internal Reflection (TIR) lens. Activated with a pushbutton tailcap click switch that also selects output levels: press or click once for a high-intensity 500-lumen white-light beam ten times the light needed to overwhelm the night-adapted vision of an aggressor. Return to off and press or click again within two seconds for a 5-lumen ultra-long runtime low beam that's suitable for navigating at night or performing close-up tasks for hours. The crenellated Strike Bezel provides further defensive options should the need arise. Runs for 2-1/4 hours on high, or 67 hours on low, using 2 CR123A 3v lithium batteries (included). Black.

# 175-853

**\$185.00**

G2X Pro LED Flashlight

The Surefire G2X Pro uses a high-efficiency LED virtually immune to failure since there's no filament to burn out or break, which provides two light output levels: a brilliant, penetrating, perfectly pre-focused 200-lumen beam, and a 15-lumen low-output setting that lets you greatly extend the runtime per set of batteries. Press the tailcap switch for momentary-on low, press further to click constant-on low, return to off and press or click on again within two seconds for high. The tough Nitrolon polymer body is smoothly sculpted for a comfortable, secure grip and resists scratches, abrasion, and corrosion. A polycarbonate micro-textured reflector delivers a comparatively wider beam with generous peripheral light. Runs for 1 hour on high, or 45 hours on low, using 2 CR123A 3v lithium batteries (included). Black.

# SOG®

Creators of Extraordinary Tools & Blades

## Ops Fixed Blade Tactical Knife

The SOG Ops Fixed Blade Tactical Knife is designed to be the ultimate knife for military and law enforcement. The Ops evolved from the proven SOG SEAL Pup, and incorporates some new features. The Ops has a 4.85" recurve AUS 8 Stainless Steel Drop Point blade, that is corrosion resistant and easy to sharpen. SOG uses Cryogenic Heat Treatment on their blades for increased strength and edge retention. The Ops features a ergonomic Zytel handle and a large thumb scallop on the blade to provide control and a perfect balance. The Ops comes with a tactical Kydex sheath.

## 24-7 Tactical Softshell Jacket

The Tru-Spec 24-7 Tactical Softshell Jacket will keep you warm and protected during changing weather conditions. The jacket is constructed from a flexible nylon blend material that is lightweight and water/wind resistant, while at the same time providing enough stretch to allow the use of ballistic vests or holstered firearms. A high collar protects your neck from the elements, and a full zip front entry enables the jacket to come on and off easily. The 24-7 Tactical Jacket allows you to store all of your accessories safely by providing two angled waist pockets with hidden covered zipper closures and mesh lining, and two rear zipper pockets on the lower back. This jacket also features two shoulder loop patches, and is available with or without a sleeve loop kit.

Universal Mini Laser Boresighter

50% smaller than the previous model, with durable aluminum construction and a sleek red finish. Works great on any weapon with at least three inches of barrel length. Powered by three 377 batteries that provide 1.5 hours of continuous use. For 22 to 50 cal firearms. The optional accessory kit includes a scope leveler, 12 extra batteries, a shotgun adapter, a 51-75 cal adapter, a daylight target and polymer case.

TLR-1, TLR-2 Tactical Illuminator Flashlight

A great flashlight just got better! Now with over double the light output, TLR flashlights offer 300 lumens of bright white light. The TLR-1 features cutting edge LED technology, while the TLR-2 features the same LED coupled with a red laser. Lights will run for 2-1/2 hours on 2 CR123A batteries (included). Durable aluminum construction.

Bipod

Each Harris Bipod is manufactured with heat treated steel and hard alloys. They attach to the front sling swivel stud on rifles, and the lightweight design does not affect carrying your rifle with a sling or shooting off-hand. Folding legs have adjustable spring-return extensions (Except for Model BRM and LM). Series S Bipod swivels to either side for instant leveling on uneven ground and have tension adjustment to eliminate looseness. Black anodized finish.

Lock-N-Load Powder Measure

The Hornady Lock-N-Load Powder Measure is loaded with innovative features that serious reloaders demand. The design allows you to change powders and settings with the push of a button. With the proper accessories you can dispense between .5 and 75 grains of powder. The push button release allows you to quickly change metering inserts for predetermined charge weights, so you can switch calibers quickly and easily without the hassle of resetting the measure. The tension on the metering insert is adjustable with an "O" ring that allows a slight amount of tension on the metering insert to make fine, incremental adjustments. The precision tolerance of .002" between the drum and rotor eliminate powder binding between the frame and the drum. Measure comes with small and large drop tubes plus a mounting plate. Measure has standard 7/8"-14 threaded dies.
